

# Forest Europe

- Towards a pan-European forest risk knowledge mechanism

# 30 years of FOREST EUROPE

- pan-European voluntary high-level political process
- promote sustainable forest management
- 46 European countries and the European Union
- 59 Observer (14 states and 45 organisations)
- 8<sup>th</sup> Ministerial Conference 14/15 April in Bratislava (virtual)

# Towards a Forest Risk Knowledge Mechanism

- supporting adaptation of pan-European forests to climate change
  - Bratislava Resolution “Adapting pan-European forests to climate change”
- transboundary, collaborative, trustful and novel format
  - better cope with forest-related risks & prevention
- back-to-back with major European related processes
  - strengthen synergies, added-values and avoid duplications

# FOREST EUROPE

Ministerial Conference on the Protection of Forests in Europe
